

## Sustainable and Alternative Signage Options

The following list is a sample of some of the more sustainable alternatives to non-recyclable signage products. The Oregon Convention Center is promoting paper and cardboard products as they are more readily recyclable. Our staff are available to help answer questions about alternative materials and the ability to recycle other products.

The Oregon Convention Center prohibits foam core and other non-recyclable signage from being left in our facility. When printing one time use signs or new signage, please consider these options.
